

October 27, 2023

Dear Parents and Students,

These students deserve an extra scoop of ice cream, extra time outside, or extra time doing whatever it is they like to do. They have worked so hard this week, and we will finish any leftover work on Monday. Check out the website <https://sbcecrewsnews.weebly.com/> .

Have a wonderful weekend.

Mrs. Crews

October 20, 2023

Dear Parents and Students,

I hope everyone is ready for the weekend. We have had a busy week and next week will be the same. The students have the Unit 2 assessment and an essay to write next week. The students have a theme practice worksheet that we reviewed in class and their Wonders workbook that has the folktale and poems we used in this unit. Their reading journal has theme, folktale, and context clue notes glued inside for them to review. They have Teams assignments for context clues and theme that they can use for review. I don't expect this to be a difficult assessment, but I want you to know what is available for the students to review. Check out the website and new information about the 5<sup>th</sup> grade i-Ready expectations at <https://sbcecrewsnews.weebly.com/> .

Storybook Parade

On Tuesday, October 31st students are allowed to dress up as a book character. They should also bring the book to school that contains the character on the day of the parade. This is **NOT** a day to wear your Halloween costume. It is a storybook parade. This will be a student only event. It is perfectly fine if your student does not want to dress up as a storybook character and be in the parade. They will be part of the parade watchers.

Have a good weekend.

Mrs. Crews

October 13, 2023

Dear Parents and Students,

I hope everyone enjoyed some family time this past week. The weather has certainly become a lot more enjoyable. The website has been updated with October and November academic and school dates and information about what we are doing in class. I have added some new uploads to the Writing tab. Check it all out at <https://sbcecrewsnews.weebly.com/> . Below we have a message from Ms. Gruber.

We are short on Science Force volunteers, and Ms. Honore has asked the teachers please add the following to your newsletter TODAY:

We are excited to begin Science Force labs for this year! This programming is dependent on parent volunteers – [click here to sign up](#).

Our Stem lab has moved and is now located near the cafeteria. Ms Howell or Ms Justice will act as the STEM lab leader and parents will lead each of the preplanned stations while the students are in the lab as well as help with setting up and taking down the lab if needed.

Please register to volunteer at [www.statebridgecrossing.com](http://www.statebridgecrossing.com) as soon as you sign up. Make sure you give yourself 2 business days to ensure that your information is received at the school. Please be careful to use the name on your drivers license when you register. Siblings are not allowed in the lab for safety reasons.

Fourth and Fifth grade parents need to verify the letter identifying their child's specials group prior to signing up. All students should know their letter and the correct group will also correspond to the day of the week that they normally attend the STEM special.

Full lab information will be sent to parents who volunteer. Thank you so much for volunteering!

Many thanks – Ms. Gruber

Have a good weekend.  
Mrs. Crews
